

Your journey to financial wellness begins with you

Financial wellness is about achieving a healthy balance between living for today while preparing for tomorrow. The six pillars of financial wellness provide a practical framework for managing your financial life. To see how you're doing in each of these pillars, circle your response to each question.

Protection

We all want to protect our families and ourselves. When it comes to getting the protection you need, a simple plan to help you make informed decisions is essential.

Do you have health insurance or Medicare with a Medicare Supplement plan? **Yes or No**

If you were unable to work due to an illness or disability, would you be able to cover expenses with disability insurance payouts, other income sources, and/or savings? **Yes or No**

If you have dependents (spouse, domestic partner, and/or dependent children) and you were to die, would your loved ones be able to cover expenses with life insurance payouts, other income sources, and/or savings? **Yes or No**

If you are age 50 or older, are both of the following statements true? I have Long Term Care insurance or am prepared to cover expenses through another source if the need arises. AND I have Critical Illness insurance or am prepared to cover the costs through another source if the need arises. **Yes or No**

If you answered no to any of these questions, determine if adding some insurance to close coverage gaps is the right thing for you. Here's a [quick article](#) on why you might need insurance protection.
