

VIRGINIA BANKERS ASSOCIATION

VBA COMMITTEES

Agenda

VBA Government Relations Committee
Wednesday January 8, 2025 3:00pm
Richmond Downtown Marriott Salons 6 & 7

Mission Statement:

To protect and defend the interests of Virginia's banking industry through active support of the VBA's political and legislative efforts.

- I. Welcome
- II. September Minutes
- III. State Legislative & Advocacy Update
 - 2024 State Legislative Meeting Review
 - 2025 General Assembly Legislative Preview
 - 2025 Banker Day Preview
- IV. Federal Political, Legislative & Regulatory Update
 - Federal Elections Review & Issues Preview
 - [Washington Summit](#) – April 7-9
- V. BankPAC
 - Current Financials
 - 2025 BankPAC Campaign
 - Goal Setting
 - Outreach and Resources
 - Contribution Guidelines
 - Special Events Discussion
- VI. Open Forum
- VII. Adjourn

**Minutes of the
Virginia Bankers Association
Government Relations Committee
Wednesday September 4, 2024 at 10:30 a.m.
VBA Office**

Committee Participants:

Brandon Lorey, Jimmy Burke, Bobby Cowgill, Trent Dudley, Patricia Gallagher, Jennifer Gegner, Laurie Hart, Adam Hill, Gary Shook, Robert Shuford, Steve DeLuca, Dennis Dysart, Matthew Steilberg, Melvin Watkins, Taylor Quicke

VBA Staff & Guests:

Matt Bruning, DeMarion Johnston, and Henry Watkins.

Welcome & Minutes

Chairman Wood called the meeting to order and welcomed everyone. By acclimation, the minutes from the May meeting were approved as amended. Mr. Bruning announced that Mr. Henry Watkins will be departing the VBA for another government relations role.

State Legislative & Advocacy Update

Chairman Lorey noted fall state legislative regional meetings begin soon and registration is open. Mr. Bruning noted that the Abingdon meeting was being postponed due to legislator scheduling conflicts. He covered the major policy issues to be covered at the meetings – check fraud, elder financial abuse prevention, level playing field with credit unions and interchange. Committee members were encouraged to register and attend.

Mr. Bruning and Mr. Henry Watkins covered the potential legislative issues anticipated in the 2025 General Assembly session. Several of those issues were contained in the overview document included in the materials, The Committee discussed the high levels and impact of stolen checks and the continued encroachment of credit unions. Mr. DeLuca provided a detailed update on the current status of interchange legislation and lawsuits in Illinois. Chairman Lorey reminded the Committee that Banker Day will be on January 9, 2025 followed by the Financial Forecast luncheon.

Federal Legislative Update

Mr. Bruning covered current federal legislative and regulatory priorities, including interchange, Treasury's AI framework and the FDIC proposal on brokered deposits. He noted the VBA recently joined with VACB and VCUL on an op-ed in the Richmond Times Dispatch opposing the CCCA by Sen. Durbin. Mr. Shook provided an update on ABA's 1071 litigation.

BankPAC

The financials as of June 30, 2024 were presented. On the motion of Mr. Shuford, seconded by Mr. Melvin Watkins, the financials were accepted as presented.

Chairman Lorey thanked the Committee for their work in reaching the 2024 BankPAC campaign goals. Henry Watkins discussed the increase in utilization of the online contribution methods. Mr. Bruning noted the desire for continued feedback on the resources available on the portal. He also noted Mr. Watkins's efforts with engaging grassroots coordinators throughout the campaign.

Chairman Lorey pointed out the budgets and contribution amounts to Virginia members of Congress in the material. Mr. Bruning noted that there are three House of Representative open seat contests on the ballot in November. Two have current state legislators running as the likely successor. The Committee discussed the possibility of making contributions to current state Senators John McGuire, running in the 5th District, and Suhas Subramanyam, running in the 10th District. Contributions would be requested through ABA's discretionary fund or through VBA BankPAC's federal account. On the motion of Mr. Melvin Watkins, seconded by Mr. Dudley, the contributions were approved.

Other Business

Chairman Lorey reminded the Committee to share their interest in continuing to serve with staff as they plan for the 2025 Committee year. Mr. Bruning reminded the Committee that the Washington Summit is scheduled for Marh 17-19. Chairman Lorey noted the next Committee meeting will take place on January 8th at the Richmond Marriott. There being no further business, the Committee adjourned.

Minutes prepared by:
Matt Bruning

2025 General Assembly Potential Legislation

1. **Mail Theft Penalties** – While the existing Virginia statute includes criminal penalties for larceny, there is no specific state-level crime on mail fraud. As a federal offense, it is rare for prosecution to occur unless the loss value is significant, meaning isolated or lower dollar crimes are not being fully pursued by law enforcement knowing that prosecution is unlikely. With mail theft and resulting check fraud increasing, it is harmful to banks that these crimes are occurring without true fear of punishment. The VBA is working to have legislation introduced to create a state-level mail fraud crime with local prosecutorial authority.
2. **Credit Union Expansion** – The VA Credit Union League (VCUL) was unsuccessful in their efforts to authorize credit unions to become qualified public depositories in the 2024 session. However, VCUL will have new leadership by the 2025 session and might want to revisit that fight or attempt other expansive proposals. Other potential proposals VCUL could pursue include revision of the current 3,000 member expansion threshold that was central to our successful SCC appeal, provide the ability to acquire banks or bank assets, and make it easier for credit unions to expand into “underserved” areas. The VBA will strongly oppose any effort by the credit unions to expand their authority.
3. **Elder Financial Abuse** – Legislators remain interested in pursuing further state law to prevent elder financial exploitation. The VBA will continue to oppose blanket mandatory reporting, training and other requirements on banks. There will be legislation to allow law enforcement to seize financial assets during the course of an investigation into suspected elder financial exploitation.
4. **Artificial Intelligence** – Legislation introduced in the 2024 session would have created standards for the development and deployment of artificial intelligence to protect against discrimination and require disclosures and assessments. The bill was not enacted but sent for additional study by the Joint Commission on Technology and Science. Consistent with the industry’s comments on AI governance at the federal level – where this is best addressed – the VBA will oppose subjecting banks to AI-related requirements beyond what are incorporated into the existing federal banking regulatory and supervision framework.
5. **CDFI Fund** – The General Assembly codified the CDFI Fund in 2023. The Fund, which provides grants to capitalize community development financial institutions, has received inconsistent funding since its inception. The VBA, as part of the CDFI Coalition, will continue to advocate for further funding support.
6. **Housing Opportunity Tax Credit** – The state level Housing Opportunity Tax Credit – modeled after the federal LIHTC program – is set to expire on January 1, 2026. In order to provide continued consistency and clarity to developers and investors, the credit should be extended. There are likely to be other proposed changes to the program, including ones that significantly increase the cost of the program to the Commonwealth. The VBA will support extending the sunset date for the program and evaluate other potential enhancements to the program.

7. **Assumable Mortgages** – Senator Sturtevant is proposing to allow a home buyer to assume the sellers’ mortgage. The concept is similar to what is allowable on FHA and VA loans. There is concern about this law violating existing notes/contracts if retrospective. If prospective, the Senator has claimed the buyer would need to be “credit worthy” but has not shared how or by whom that would be determined. It is difficult to foresee how this might be workable and we await bill language to review.
8. **Corporate Ownership of Residential Property** – Legislation was introduced in the 2024 session that would have prohibited large corporate investors from purchasing residential property in the Commonwealth. The legislation is in response to the concern over out-of-state investment conglomerates buying single family homes in VA and turning them into rental units, believing that this practice is driving up the cost of housing, taking affordable housing stock off the market, and squeezing existing homeowners from their neighborhoods. While the bill did not pass, leaders from both parties indicated a desire to identify similar but workable approaches. The VBA will continue monitoring those discussions with an eye towards ensuring no conflicts with fair lending laws or complications with title.
9. **Rent-a-Charter Usury** – The VA Poverty Law Center and Senator Bagby are proposing a bill to get out-of-state banks that are allegedly allowing car title lenders to make loans on their behalf, circumventing the state’s ban on those lenders and the usury law.
10. **Garnishment** – The VA Poverty Law Center and Delegate Hernandez are proposing a bill to allow for a \$5,000 “homestead” exemption protection from garnishments. The VBA is seeking feedback on any operational process concerns.
11. **Non-Compete Agreements** – Legislation in 2024 proposed eliminating most uses of non-compete clauses in employment agreements. The Federal Trade Commission adopted similar rules for companies subject to the FTC, which has been subject to litigation and a recent ruling stopped implementation and enforcement of the rule. While banks are not directly subject to FTC oversight, the FTC claims authority over holding companies and subsidiaries and federal banking agencies may enforce FTC rules. Banks of all sizes judiciously utilize non-compete clauses with their employees. The VBA should oppose broad bans on these clauses.
12. **Interchange** – Frustrated by having their efforts thwarted in Congress, retailers have been attempting to attack credit card interchange fees in the states. Recently, they were successful in Illinois in removing the imposition of interchange fees on the sales tax portion of a transaction. Payment systems are not structured to break out that information and implementation would be costly to both banks, networks and all but the largest merchants. The banking industry is pursuing legislative and litigation efforts to reverse the outcome in Illinois, but merchants may feel emboldened by that victory and seek similar legislation in other states. Like the federal fight, this is simply a money grab by the big box retailers and online merchants. The VBA would oppose any effort on shifting interchange responsibilities.

The Big Picture: This legislation creates a state-level crime and strong criminal penalties for mail theft.

What's Happening:

- Banks invest heavily in securing customers' personal financial information. However, **fraudsters have turned to stealing mail** from postal workers, vehicles and mailboxes to commit check fraud.
- **Thieves are taking advantage of inconsistent federal enforcement** of mail theft and gaps in state-level criminal penalties.

SUPPORT SBX (X) /HBX (X)

Why You Should Support this Legislation:

- Despite the decline of check usage nationally, **check fraud is quickly becoming one of the largest forms of financial fraud**, with reported incidents more than tripling over the last five years.
- Due to existing gaps in the state larceny statute and federal enforcement of mail theft, **fraudsters are preying on the elderly and vulnerable members** of the community.
- Thieves take checks out of the mail and "wash" them with chemicals, changing the amount and payee then cashing them using fake identities, **leaving victims and financial institutions with significant losses.**
- **Routing and account information is also stolen off the checks** and used or sold on the dark web for further financial fraud, forcing customers and financial institutions to shut down accounts and open new ones.
- Older consumers are more likely to use paper checks, making them more **vulnerable to check fraud through stolen mail.**
- **Current state larceny statute does not allow for law enforcement pursuit of mail thieves,** leaving it inadequate to combat these crimes.
- The new **statute would also combat the theft of packages**, deterring "porch pirates."
- The new statute **complements existing federal laws on mail theft** and enhances the ability of law enforcement to investigate and coordinate with federal officials, including the US Postal Service.
- **At least 15 other states have similar state-level criminal penalties** for mail theft and this proposal aligns closely with laws enacted in Georgia, Louisiana, and Nevada.

The Bottom Line: Virginians' personal information in the mail should not be fair game for criminals to steal and use to drain consumers' finances. Help stop fraudsters from stealing Virginians' savings.
