PWCampbell Earns Women's Business Enterprise Certification from WBENC

Pittsburgh, PA – PWCampbell is excited to announce it is officially certified as a Women's Business Enterprise by the Women's Business Enterprise National Council (WBENC). This prestigious national certification was awarded on November 21, 2024, after a thorough approval process.

“This certification opens new opportunities for our company and our clients. Many potential clients actively seek to collaborate with women-owned businesses, and this designation sets us apart in our industry,” stated Erin Campbell, Principal.

Out of approximately 14 million women-owned businesses in the U.S., only about 20,000 companies hold WBENC certification.

“PWCampbell takes pride in being part of this exclusive group, as only 0.3% of construction companies nationwide attain WBENC certification. Certification reinforces our status as an industry leader and our ongoing commitment to supporting women entrepreneurs and professionals,” stated Amanda Caliendo Campbell, Principal.

The WBENC certification is considered the gold standard for women-owned business certification. Women's Business Enterprise companies must be at least 51% owned, controlled, and operated by women. The certification is renewed on an annual basis. For more information about WBENC, please visit www.wbenc.org.
